O.W.R.C. APPROVES MINDEN NEW SEWAGE PLANT SITE

The Ontario Water Resources Commission advised the Clerk of Anson, Hindon and Minden that the Commission is prepared to approve the proposed site located on Parts of Lots 1 and 2, Concession A in the township of Anson for the treatment works and will proceed with the further development of the project on this basis. The O.W.R.C. hearing, which was held in Minden on November 19, 1971 offered an opportunity for local residents to obtain information on the scope of the proposed project and to receive explanations of the proposed works. Township Officials were generally optimistic that the procedural steps will now be hastened with possible construction in 1972.

GOSPEL SING AT HYLAND CREST SR. CITIZENS HOME

The Canadian Gospel Sound presents a Gospel Sing featuring 'The Advocates' an instrumental and vocal group and also Ken McLellan. This Gospel Sing will take place Saturday December 11 at 8 o'clock p.m. in the Hyland Crest Auditorium. Everyone is welcome, and admission is free.

HUSKIES SETTLE FOR A SPLIT IN WEEKEND GAMES

The Huskies lost a chance to stay in the number 1 position in the Central Ontario Junior D league when they lost to the Lakefield club at home on Saturday night. The Huskies were fresh from a 6 to 5 win over Fenelon Falls on Thursday night, but had to settle for a 4 to 1 loss to the visiting Lakefield team, therefore relinquishing the lead that they had been in. The Lakefield club has a well-balanced attack as well as a steady goaltender and some fast skating defence. The Huskies missed some good scoring opportunities.

The Huskies at Fenelon jumped into a 6 to 2 second period lead but ran into a rash of penalties and by the 10 minute mark of the third period the Fenelon Club had rallied to a 6 to 5 position. The Huskies managed to hang on and win the game but the last few minutes were certainly exciting.

Gerry McElwain was the big gun for the Huskies at Fenelon as he scored his second hat trick in as many games in the first period. Roger Bain also scored as the Huskies defence limited Fenelon to 1 goal. Bob

Woodcock who is generally a mild tempered player was ejected from the game after he was enticed into 2 fights during the opening period. Bob is certainly a valuable player to the Huskies and he was missed during the rest of the game. The Husky lead was increased to 6 to 2 as John Parish and Ed McCallum scored. Fenelon came back strong in the third and almost tied the game on several occasions before the time finally ran out.

The Huskies lost their first league game before their home town fans on Sat. night. The Lakefield club was certainly

up for the game and played an outstanding brand of fast hard-checking hockey. Heffernan opened the scoring for Lakefield. In the second period, Lakefield increased their lead to 3 to 0 before John Parish scored on a rink long rush that gave the Huskies some spark. The Lakefield club responded with their 4th goal of the game to end the scoring in the game. The Huskies play Bancroft in Wilberforce on Friday night, and then the Huskies old arch rivals, the Bobcaygeon Ti-Cats will be in town on Sat. night.

H.H.S.S STUDENTS TO APPEAR ON TELEVISION

On December 10 the residents of Haliburton County will be able to see four students from Haliburton Highlands Secondary School compete in C.B.C.'s 'Reach For The Top'. The members of the Haliburton School are Don Hunter, Debbie Duncan, Bob Arbuthnot, and Harold Morgan. This team will compete against students representing Centre Dufferin Secondary School of Shelburne, Ont. The production may be received on Channel 3, Barrie at 6:30 p.m. Friday, December 10.

OBJECTIVE \$75,000 — Total To Date \$61,597.20

Each week a list will appear in this paper of those who have donated to the Recreation Centre Fund.

TAKE IN ROTARY BINGOS

This Thursday night, December 9th, the Minden Rotary Club will hold their regular Bingo for the \$250.00 jackpot, along with the Snowball game. Next week Thursday, December 16th the Rotary Club will hold their annual Turkey Bingo, with the big birds given away as prizes. Could be you might win one for Christmas. Bingos start at 8:00 p.m. at the Kinsmen Centre.

OBITUARY

William W. Eastman

The late Mr. Eastman passed away on Monday Nov. 22 at the Hyland Crest Home Minden. Mr Eastman was in his 83rd year. He lost his eyesight when he was injured in an explosion in 1911.

He was born in Snowdon Twp. After some time spent in Toronto, he returned in 1945 to Ingoldsby to reside. He was the husband of Isabelle Rutherford. He is also survived by one son Douglas and six grandchildren. A brother Elmer in Florida. His sister Effie, Mrs. Ed Harrison Elizabeth and James infants predeceased him.

The pallbearers were: Jack Frances, Bert Harrison, Percy Burk, Norm Harrison, Ed. Carpenter, Robt. Peacock. Burial took place Thursday Nov. 25th. from John Welch and son Funeral Home. Minden to Ingoldsby Cemetery.

PROUD MOTHERS AT WARDEN'S BANQUET

Attending the Warden's Banquet recently was Mrs. Windover, (right) mother of the Warden Roy Windover and Mrs. McKay, mother of the Warden's wife Marjorie. The Warden was fortunate to have many of his immediate family attend his banquet.

800 ACRES WITH HOUSE

This acreage is very suitable for a hunt and snowmobile club. Beaver creek flows through property for speckled trout fishing. The house, cabin and large barn are in good condition, it also borders on crown land for more privacy. An excellent investment at \$57,500 Terms.

NEAR KINMOUNT

100 wooded acres, some good timber on this one, with beaver pond and 1320 ft frontage on 121 highway. A nice hunting or retreat property. Asking \$11,000.

HERE AND THERE

with Fenwick Finch

Lost another week — and, again I'm indebted to Drs. Jackson and Koval for getting me into circulation again. Also my thanks to the Staff of the Red Cross Hospital for the care they gave me.

A couple of weeks ago there was a very interesting programme from the Hospital in Penatang. The local interest was Foster Loucks who is a therapist on the staff. About three-quarters of the way through the show Foster came onto the screen as he guided a group of students through the Hospital and answered their questions. A very good shot it was of him too.

While on the subject of interviews the recent interview with our good friend Gene Duplantier on the John Gilbert show has got to be about the most poorly handled show of 1971.

Gene is well-conversant with his subject — "flying Saucers and other Sciences" — he is a confirmed expert in his field — Gilbert gave him just enough air time that Gene looked real poor.

Came time for the pictures that would have been interesting they had run out of time mostly through Gilbert affirming and re-affirming ad nauseum that he was sceptical about flying saucers and everything else Gene stood for.

Maybe Gilbert's other interviews were better but from where I sat, Gene didn't have a chance, the biggest part of the show were shots of Gilbert shooting off his mouth. To me Gilbert missed an interesting subject.

Turning over the pages of the recent Star Weekly "Panorama" magazine I hit page 5 and there, staring at me in full-faced grandeur was "Elwood Cranston" the sage of the Kawarthas.

The article by Frank Rasky on George Franks and his "alter ego" was quite interesting and I enjoyed it very much. When I think of how Sean Eyre ran into trouble getting me a "free" book on Elwood, I still think he's a cheap-skate. Some of my readers have taken me to task pointing out that by trying to get the booklet for nothing I was pretty cheap myself — not so, in my case it's just a matter of pride — a "penny saved is a penny earned" my Grandfather always told me. Besides Elwood's in better shape to be generous, according to the article he's making something like 20 thousand bucks a year so it don't hurt to have him spring for one lousy book.

I've been fighting a running battle with moles on my lawn and have been holding my own — now I'm engaged with beavers in the creek. They have a dam built and are slowly flooding the ground.

Had to call in outside skilled help and the Department of Lands and Forests and J. Earl Hewitt and Ron McKelvey have joined forces to help me stand the beavers off.

Well, that's another week — We're out of space. As you know every once in awhile I pick up a little information that you could throw into a conversation to liven things up: I picked up this item in a journal as I was sitting in Dr. Koval's office. As people get older they worry about going bald or turning grey. This item should reassure you — until next week, think about it — your pubic hair is the last to turn grey — now ain't that worth knowing?

Drive carefully — Christmas is coming up, be around to enjoy the Festive season.

WARNING FROM THE DEPT. OF LABOUR

The Ontario Department of Labour recently advised the Clerks of all Municipalities in Ontario that: As winter approaches, Municipal officials throughout Ontario should be concerned about the structural adequacy of municipal arenas and other buildings in their community to withstand snow load accumulations on roofs.

Disaster can be so sudden. The collapse of the arena roof at Listowel in February, 1959 with the loss of eight lives in a grim story that must not be repeated. In the past few years, there have been reports of other roofs that have collapsed fortunately without the loss of life.

The Safety and Technical Division of the Ontario Department of Labour urges all municipal officials to assure that arenas and other buildings are carefully checked by qualified professional engineers, and to assure that the structures meet safety requirements of the National Building Code of Canada. Structural engineers are aware of the dangers created by heavy snow accumulations on roofs and have knowledge of areas of heavy snowfall. Safety engineers also stress the need for proper erection and proper maintenance. Buildings which have withstood heavy snow loads in the past may have suffered deterioration due to unsatisfactory maintenance.

Last year, the snowfall in many areas of Ontario reached near-record heights. Some examples of the snowfall were: Glen Gordon near Ottawa 218 inches, Timmins 161 inches, Muskoka Airport 125 inches, Warton 131 inches, London 115 inches and North Bay 118 in.

Other factors must also be taken into consideration. New buildings adjacent to the structure could considerably change the snow load patterns. It should be noted that the depth of snow on the ground is not a reliable indicator of snow depth on the roof of a building. The amount and distribution of the snow load that accumulates on roofs depends on several factors: geographical location, wind exposure of roof and shape and type of roof.

Variations of climate in Ontario produce a wide variation in snow load conditions. Snowfall in some areas of the province is among the heaviest in the Country with a seasonal high of up to 100 pounds per square ft.

The Association of Professional Engineers of Ontario suggests that inspection of arenas be carried out by a professional qualified person who is capable of establishing the structural efficiency or safety of the arena in its present condition and use. Registered professional engineers are to be found in most communities, but if assistance in locating suitable qualified engineers is required,

SNOWMOBILING IS POPULAR SPORT IN ONTARIO

Snowmobiling is no longer a craze but a way of life in Ontario where in just six years its popularity has grown 30-fold from about 5,000 vehicle owners in March 1965 to 160,651 last winter.

Moreover, in a study just completed by the Travel Research branch of the Department of Tourism and Information covering the 1969-70 season, it was indicated that an average of 3.4 persons per family indulged in the pastime, bringing to roughly 340,000 the number of devotees during that period.

Snowmobiling is big business now and the provincial economy is feeling its explosive impact, with even greater gains predicted for this upcoming season.

On the average, the Ontario snowmobiler pays about \$1,200 for his vehicle and other equipment. Collectively they spend \$12.7 millions on vehicle operation, which includes licenses, gas, oil, repairs and storage. They also spend \$200,000 on park and club entrance fees, \$500,000 for commercial accommodation \$1,100,000 for meals on snowmobile safaris, and \$800,000 on other sundry expenses, such as suitable outdoor attire.

It all fits into the pattern of

the Association will provide a number of names of individuals within a reasonable distance of your community who may be contacted.

the Department's current aim to make the province a four-season tourist destination. Since the advent of snowmobiling many Ontario resort operators keep their establishments open all winter which, in turn, has created more needed winter jobs in rural areas.

The 97-page booklet which on request, can be purchased for \$3.00 per copy from the Department at 185 Bloor St.E., or at the Ontario Government Book Store, 880 Bay St., Toronto, delves deeply into the Ontario snowmobiling craze.

For example, of all respondents in the survey, 78.5 per cent of respondents want them for hunting, ice fishing, transportation to ski areas, snowmobile racing, and other recreational activities.

Low on the snowmobile totem pole were those who buy vehicles for non-recreational purposes, such as transportation into formidable areas — just 6.3 per cent.

Executive business types own about 11 per cent of Ontario snow vehicles, 9 per cent are owned by professional people. And, surprisingly, only 4 per cent of farmers in this province own a snowmobile.

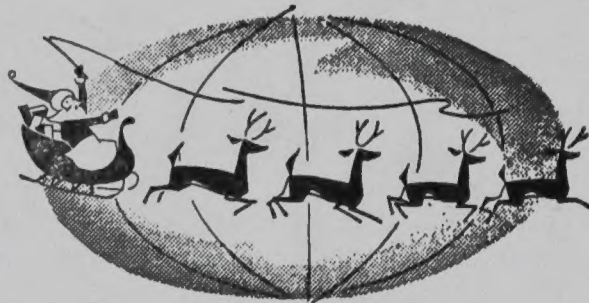

Reflected in the study, too, are the detriments of snowmobiling. In the 1970-71 season some 40 persons in Ontario were fatally injured in 39 snowmobile mishaps.

EDITORIAL

with Al Greir

GREAT CONTRIBUTORS

This is the third editorial I have written this week — the other two have been filled under "G" — garbage. It has been a trying week, I am sure everyone has one in the course of a year

But, for me I feel more exhausted than usual, and in an attempt to fill this column, I have been collecting my thoughts about two men, Harry Cowen and Charles Brandon, who have contributed much for Minden.

I am saddened of course with the fall in membership of both the Kinsmen and Rotary Clubs. These two organizations have been a tower of strength in this community for many years, and now find themselves with few members to keep on the many obligations clubs have to themselves and to the area.

Some of the ones who hand in their resignation, are missed greatly, and have contributed much to the success of the club, while others contribute very little, and are really never missed.

Harry Cowen has been the most recent to hand in his resignation, this past week, and believe me, it was a blow to the Rotary Club. Harry bent my ear the first week we published a newspaper in this town, I had given the Kinsmen Club recognition for the great job they had done on the River Bank, and Harry quickly informed me that it was a Rotary project. Since that time because Harry and I have strong personalities, we have had our differences, but each time we gave a little ground and respected each others opinions. Harry was a Charter member in Rotary, 1947-48, under President at that time Ken Currie, and has continually been one of the strong pillars of the Minden Rotary Club. In 1964-65 he was elected President, and over the seven years I have been associated with Rotary, have worked on many committees with him, admiring the man for his strength and enthusiasm he has put into every undertaking asked of him — he will be greatly missed.

The other personality I have been closely associated with over the years is Charles Brandon. Township and County politics has been his bag — and the changes here have been phenomenal. As Reeve Charles has guided township zoning, the water system, a road crew, equal to none in the county, an arena which is about to be built, on one of the largest designated recreational areas in any township in the county, it will only be a matter of a short period of time till sewerage system is installed in Minden. He has been Chairman of the new County Road System, since it started, which will bring great changes for progress in the future, to this entire county.

How does one measure the value these men have been in their respective fields. Although Charles is still Reeve, he has talked about every term being his last. How does one go about to replace them? The task is almost impossible. Everyone likes to talk and complain, about this person and that person, but those type could never be counted on to take over, or for that matter could never handle the job if they did. The old expression still holds true, "give a busy man the job, and he will get it done" — the trouble is there are too few busy men.

LETTER TO THE EDITOR

Dept. of Geography
University of Western Ont.
London, Ontario
December 1, 1971

To the Editor
Dear Sir:

As a post graduate fellow and a tutor in Recreational Geography, I found Mr. Bate's hypothesis on the closing of the Whitney trail interesting, if not absolutely correct.

The Ontario Department of Lands and Forests in their wisdom, did not close this particular trail because of fear by the Department that the snowmobiles might frighten "the wolf" nor because they feared that the snowmobiler might injure himself, but in actuality, the trail was closed in order to protect Algonquin Park, a recreation area held in mandate by the entire population of Ontario, from the total environmental impact of the snowmobile.

True, the environmentalists and the conservationists have centered out the snowmobile as being one of the prime factors in the degradation of the environment, but in truth, why should the rights of free access by the snowmobiler preempt the rights of the rest of Ontario's population to enjoy Algonquin Park (and the rest of Ontario's Parks and total area) in its natural and undisturbed state.

The snowmobile does bring revenue into our communities; but let us not lose sight of the fact that it is Haliburton County's basically unspoiled nature that is the prime attracting factor for both summer and winter visitors.

To destroy this resource would be to cut off our county's basic source of revenue. The snowmobile does aid in the destruction of the environment, and it is for this reason that its use has been curtailed in Algonquin Park and it is for this reason that I feel its use should be controlled in our county. The environmental impact of the snowmobile is staggering, and far beyond the realms of what appears to be Mr. Bate's imagination.

Yours truly,
Gordon Graham

CURLING NEWS

by Marian Ingram

Dec 2nd saw the Minden Curling Club's Open House. Most of the old regulars were in attendance, along with a good few new curlers.

Movies of last year's Brier were most interesting, particularly to the seasonal curlers. Newcomers were given basic instruction by a few of the seasoned curlers.

Bill O'Brien brought along his guitar and with his wife Janey leading, they sang up a storm. A real good start for the season, with indication that this type of evening will happen fairly regularly.

The first Bonspiel of the season was held Sunday Dec 5th. The winners were Fred Wright, Art Hodgkinson, Reta Hodgkinson and Carol Johnson. A Pot Luck supper was provided by the ladies and a marvelous time was had by all.

Dec 1st the ladies group started curling. Dec 3rd. started the mixed curling and Dec 7th is the beginning of the men's schedule. New members always welcome. Call membership committee, Don Hall 286-1764.

BASKETBALL GAME NOV. 30 by CLIFF BURKE

On Tuesday Nov. 30th the Minden No-Stars basketball team was to play the Coboconk O.P.P. but for some unknown reason they did not show up for the game. I would like to take this opportunity of apologizing to all those who came out to see the game.

The first string took on the second string and played what turned out to be a pretty fair basketball game, with the A team prevailing 74-45 over the B team.

CORRECTION

In last weeks Editorial we mentioned that Donald Williams running for Reeve and A. O. Shingler running for Deputy-Reeve were from Toronto; it should have read Woodville and West Hill respectively.

Also in error was the date of the election in Snowdon Township, the election will be held on the 11th.

We were also in error when we listed Jim Newell as running for Council in Snowdon, it should have read Mrs. Gene Newell.

SPORTS CORNER

with CLIFF BURKE

MINOR HOCKEY —

Midgets Defeat Management 5 - 3

On Sunday evening in Haliburton, the Minden coaches and managers tangled with the Minden Midgets and dropped a hard fought 5 - 3 decision. Kirk Hewitt continues to shine for the midgets, scoring twice and assisting on two more including the winner by John Welsh. Royce Miller and Gary Foster scored the other midget goals.

Scoop Greir was flying all evening for the coaches and scored twice for the losers, one was set up beautifully by Skittles Scott. Lee Bull notched the other goal on a screen shot from thirty feet out in front.

Once again a hockey helmet prevented a player from sustaining a serious head injury. Kim Hewitt was knocked heavily to the ice early in the second period, and was taken to the hospital with a loss of memory. However he returned shortly in apparent good condition. Without that helmet I'm sure Kim would be still lying in a Hospital bed. Keep those helmets on fellows.

Minden Novices 17 Oakwood 0

Saturday, December 4th the Minden Novices travelled to Oakwood and blasted the Oakwood team right out of their rink with a 17 - 0 trouncing. Brian Shaw was the big gun for Minden scoring six times. Terry Harrison had three; Garry Harrison and Tom Gough had two each; with singles going to Leslie Booth, Mark Greir, Corey Coneybeare, Paul McKenzie and Rick Beeney.

Minden Novices 2 Beaverton 9

Sunday, December 5th the Minden Novices played their second game in less than twenty-four hours, and dropped a lopsided 9 - 2 loss to Beaverton. The team tired badly in the later half of the game and Beaverton kept pouring in on goalie Mike Bird. This youngster should be really congratulated on his fine play in his teams first seven games, scoring three shutouts and allowing only 17 goals.

The Novices next game is December 12 against Sunderland in Haliburton.

Minden Mites 2 Bobcaygeon 0

The Minden Mites playing their first game of the season blanked Bobcaygeon 2 - 0 on Saturday. Scoring for Minden in the first period was Lenny Blaskivich, and in the second period Scott Arbuthnot. Both goals were set up by Harold Porter.

The next Mite game will be advertised at a later date, it to will be against Bobcaygeon.

Minden Pee Wees 1 Haliburton 3

Minden Pee Wees played their first home game of the season Wednesday, and dropped a closely fought 3 - 1 decision to Haliburton. The Pee Wees picked up three of Al Greir's Novice players, Tom Gough, Jim Hatkoski, and Brian Shaw. All three players acquitted themselves well according to both coaches. The game was tied 1 - 1 going into the third period but the Minden players appeared to tire and the Haliburton team salted the game away with two goals. Scoring the tying and only goal for Minden was Peter McKenzie.

Minden Bantams 1 Bobcaygeon 8

Playing their second game of the season, the Minden Bantams appear to be short of scoring power as they dropped their game to Bobcaygeon 8 - 1. Scoring the lone goal for Minden was Doug Ray.

SHUFFLEBOARD —

CAR ACCIDENTS IN AREA

Icy road conditions in this County contributed to two accidents police said.

On Sir Sam's Road, a car driven by Irene Patry, of Eagle Lake, suffered \$350 when it was in collision with a van driven by Edward Hogan, 47, of Hopkins Ave. Peterborough. The van emerged with a scraped gasoline tank.

Pick-up trucks driven by Donald Boland, 50, and Calvin Bailey, 66, both of Haliburton, collided on the Kennisis Lake Road. Boland's vehicle sustained damage set at \$50 and the Bailey truck was damaged to the extent of \$250.

LETTERS TO THE EDITOR

Haliburton County
Snowmobile Association
P.O. Box 420, Haliburton

Hon. Rene Brunelle, Minister
Ont. Dept. of Lands and Forests
Queen's Park, Toronto Ont.

Honourable Sir:

The Haliburton County Snowmobile Association has directed me to write you expressing its concern and opposition to your Department's Radiogram dated Lindsay, November 12, 1971, announcing the closure of the townships of Clyde and Bruton to snowmobiling, including the Ontario Hydro's right-of-way through the Township of Clyde.

It is the closure of the Hydro right-of way that this Association is strongly opposed to. This right of way has provided a direct link connecting Haliburton County with the Whitney area lying east of Algonquin Park for many years, and has been used by thousands. It is this Association's conviction that the use of this right of way for snowmobiling has not in any way adversely affected the animal life or ecology of the area. To the residents of Haliburton County it is appalling that your Department should close an already cleared piece of land where the forestation has already been killed by the Hydro in order to keep it accessible for maintenance purposes.

This Association embraces a membership now in excess of five hundred persons, representing business men, private residents and cottage owners of our County. It is not the intention of this Association to sit idly by and allow an illogical measure

of this type to interfere with the freedom of movement and recreation that has been our privilege in the past, earned at a high cost in time, labour and dollars.

We herewith request the immediate withdrawal of this directive.

hwr lr. lhdhrhf..dA.. aoi taor
Respectfully yours,
M.P. Waddell, President

LUTTERWORTH TOWNSHIP COUNCIL MINUTES

A meeting of the Municipal Council was held on December 1st, 1971, all members were present.

It was passed, that the minutes of November 3rd meeting be adopted as read. Carried.

It was passed that the following accounts be paid, General \$854.12; Welfare \$637.86; Road \$4,503.55. Carried.

The correspondence was read and the necessary answers prepared.

It was passed that we purchase a new Homelight chain saw for the township road department for the price of \$265.00 less 10 per cent. Carried.

It was passed that we adjourn until December 22nd, 1971 unless called by the Reeve. Carried.

ELIZABETH I

The Faces Of Age — Glenda Jackson, as Queen Elizabeth I of England, dramatically from a young girl (left) to an old, lonely woman of 69 in Elizabeth R, CBC-TV's six-part series, which started last Sunday, December 5 at 9 p.m. The trick, says the beautiful, award-winning actress, is all in the makeup.

DOLLARS AND GOOD SENSE

by William J. Martin

Mr. Martin serves as special consultant to Avco Financial Services. All questions should be sent to him at P.O. Box 5875, London Ontario, Canada. Those containing a name and address will be answered in this column or by direct return mail. No names will be used in print.

Dear Mr. Martin:
My wife and I have outgrown the need for the large home we've lived in for many years. Although its in pretty good shape, there are some places that could be fixed up. What's your advice on making these repairs? Will it be worth it or will it help sell the house?

Dear B.G.
Most real estate experts agree that it doesn't pay to spend a lot of money for house hold face liftings simply to help sell your house. You will rarely get that money back.

Usually you'd be better off to do some good cleaning and

ber of your family who hasn't been around the house for a while. Note all the little problems that need attention.

Usually by taking care of these small items you can make your home very attractive when it comes time to selling it and it won't cost you a great deal of money.

It's rather foolish to panel a wall when a simple paint job will do. Panelling, of course, would be much more attractive as a selling point, but is it worth it?

So take some time for a good inspection tour with some mem-

sell your house. You will rarely get that money back.

Usually you'd be better off to do some good cleaning and add a bit of touch-up paint rather than spend a lot of money on extensive renovations. Big jobs hardly ever command

HALIBURTON STUDENTS STRANDED ON MOON

Thirty-two students from the Archie Stouffer Elementary School in Minden have been stranded on the moon.

Susan Campbell and George Burley's class of Grade 8 pupils were taking part in Canada's first simulation game played with a television set.

The game, Operation Moon Vigil, lasted eight days with daily televised reports from mission control providing each day's instructions.

At the end, the children should have learned something about working as a group, said the game's inventor, Rob Nelson.

Five minutes of instructions were beamed to the class daily. The children had already been told they were space scientists working on the moon.

Within three minutes of the first program on Ontario's educational television station, the 'scientists' learned their space craft, Lunex 12, had "crashed" on the moon.

The next few days were devoted to the efforts to "save" the crew and to develop survival techniques.

There were messages to decode, navigation exercises, food rationing and a daily log.

The program, which cost \$186,000 to develop, and \$19.50 for a teacher to buy the necessary kit for his class, has been watched by 12,000 Ontario students. Our school was fortunate enough to be selected as one of the first schools participating in the programme and as such received the students' kit from our Region 8 Office at no expense. Mrs. Campbell and Mr. Burley will submit a critical appraisal of the benefits of this simulation - game approach to Region 8 Consultants.

Repeats of the programme will be broadcast next school term in order that other classes may participate.

In the past few days most if not all residents have received a letter from the Committee for Lutterworth Township Affairs.

Many points in this brief are certainly worth discussion

It is welcome to see that the ratepayers of this township are concerned enough to band together to ensure that the procedures of the council are for the betterment of all taxpayers.

I feel that since I have been involved in Municipal work for almost ten years I have the knowledge and can understand the local feeling, along with concern of the non-resident taxpayer for the affairs of this township.

I must comment on the letter presented by this Committee which must be of great concern to them. At no time has the council ever refused a free offer of land to establish a refuse dump. Numerous times the council has approached many ratepayers in an effort to procure land that is suitable for a dump. A dump was closed in the past year when the land was purchased by a private concern.

At present there are five dumps maintained by township funds and arrangements with an adjoining township to use one other dump.

At all times in the past notice of nomination meetings have been published according to Municipal law and have always been advertised in local newspapers.

The problem of pollution has been discussed many times in the past and it is felt by myself that under County jurisdiction tight control is being held to maintain the qualities of Haliburton County in a pollution free environment.

In the past years all meetings of the council have been open and all ratepayers have been able to express their own feelings to the advancement of the township.

In the next few years many changes will take place.

In 1972 at least 1/2 million dollars provided by the Provincial Government will be spent on roads in the township. No other township in Haliburton County will receive as much funds in the newly established County Road System.

There isn't any doubt that all people who have qualified to be elected would be an asset to the township, but it must also be remembered that a person with experience who is in touch and can be close by when a need arises should be considered as a candidate that can serve best.

I would ask that the confidence you have placed with me in the past would remain for another term.

BOB BEENEY

The polls will be open from 9 a.m. to 5 p.m., Saturday, December 11 at the Lutterworth Municipal Office

TENDERS

Sealed tenders will be received by the undersigned until December 13, 1971. To supply a bus and draw school children from Eagle Lake by a West Guilford to Haliburton village schools. This route will commence on September 1, 1972.

A 72 passenger bus is required and it must meet all safety and mechanical fitness requirements according to the Department of Transportation and Communications regulations.

The lowest or any tender will not necessarily be accepted.

Please mark bus tender on envelope. Address tenders to the:

Haliburton County Board of Education
 Mr. James G. Leworthy
 Business Administrator
 Box 507
 Haliburton, Ont.

TENDERS

Sealed tenders will be received by the undersigned until December 13, 1971. For No. 2 grade oil for the year 1972. For all the elementary and secondary schools in the County of Haliburton.

Further information about the location of the schools can be obtained from the board office.

Oil preferred to be delivered out of school hours for safety reasons, and must be on an automatic delivery policy. Metored slips must be attached to invoices and sent to the board office for payment.

The lowest or any tender will not necessarily be accepted.

Please mark oil tender on envelope. Address tender to the:

Haliburton County Board of Education
 Mr. James G. Leworthy
 Business Administrator
 Box 507
 Haliburton, Ont.

KAWARTHA FESTIVAL TO PRESENT 'YOU'RE A GOOD MAN CHARLIE BROWN'

The Kawartha Festival Foundation will present the record breaking musical 'You're a Good Man Charlie Brown' Peanuts comic strip, at the Academy Theatre in Lindsay, Ontario, on Friday and Saturday, January 28th and 29th, 1972. The play will be cast with Lindsay actors and will be directed by Dennis Sweeting. Characters appearing in the play are Charlie Brown, Snoopy the beagle dog, Lucy, Peppermint Patty, Linus, and Schroeder. Devised some years ago from the comic strip, the musical has taken audiences by storm all over this continent and Europe. One of the most successful companies paying the show originated in Toronto, and has since travelled all over the United States.

In announcing the production the Kawartha Festival is taking its next step in bringing entertainment to Lindsay on a year round basis. The recent very successful presentation by the Peterborough Symphony Orchestra was the first venture this season. The Festival is now negotiating for a return visit by the magnificent National Arts Centre Symphony Orchestra and a performance by the Canadian Opera Company Children's Choir.

CANNED PREM BEING RE-CALLED

The Food and Drug Directorate of the Department of National Health and Welfare, and the Ontario Department of Health have requested the assistance of the Health Unit in helping to prevent the sale of Prem, a caned meat product of Swift Canadian, in the Code Series E. 152 to E246 inclusive. Codes not in this series may be sold, or used if in homes. The series number is on the top of the can.

No sickness has been reported, but designated batches are believed to be underprocessed.

Checks of some stores by the public health inspection staff have shown cans of these lot numbers still on the shelves. The Health Unit asks store managers and the public to check their stocks, and remove all cans in this series, E 152 to E 246 inclusive. It is suggested that persons having cans in this series return them to the stores where they were purchased.

ABOUT THE TOWN

With Jeanne Sears

It may have been of interest to anyone who was watching Channel 9 on Sunday evening, November 21st, from nine to ten that the film that was presented were pictures taken at Oak Ridges Hospital, Penetanguishene depicting discussions among the patients and staff. Former Minden student, Foster Loucks, was one of the staff shown. He has been employed there for the past fifteen months. Oak Ridges was formerly known as the hospital for the criminally insane.

Sincere sympathy to the family and friends of the late Harry Elestone whose funeral was late last week.

Open House was the order of the day last week at Stedmans and Minden Furniture when people could enjoy a coffee and brouse around looking for gifts one might like to buy.

There was a lucky lady at the Rotary Bingo last Thursday when Mrs. Harold Alton of Cobocok won the Jackpot of \$250; she was really lucky as we heard there were 164 people there and what a good time of year to win, so close to Christmas.

There was a nice crowd at the Orange Hall last week for monthly card party with winners being for euchre Bill Hounsell, Mammie Kellar, Mae McArthur and Charles Stevens and for cribbage Peggy Brown. After the games all enjoyed the delicious lunch and cup of tea served by the L.O.B.A. committee.

Another couple are welcome to the village, Mary and John Klim who are in their new home on the hillside near the doctors office.

We noticed a gang of workers busy last week tearing down the storage shed behind Crest Hardware. The new one which is to replace this, will be modern and attractive.

Patients at the local hospital early this week were Mrs. Elsie Harrison, Mrs. Kirsten Stange, Baby Jason Stoughton. New babies were a baby boy for Mrs. Joane Bounsall and a baby girl for Mrs. Dave Henderson.

The Catholic Women League had a good crowd at their Bazaar - tea last Saturday on the Main Street and Sherry Walker was lucky winner of the doll with its clothes and Janice Tye won the crocheted poncho.

Several persons had serious falls, Mrs. Walter Welch has suffered a broken bone in her ankle and Russell Lewis is in Ross Memorial after suffering a broken hip.

At the Mini Card Party last Thursday afternoon, winners were for euchre Carm Kellar and Joanne Beattie and for cribbage Isobel Bingham and Peggy Brown.

Charles Hyde leaves next week as he is transferred to Barrie Branch of Canadian Imperial Bank of Commerce.

There has been a change of date and time for Women's Institute Christmas Party, new date is Friday, December 17th at 8 p.m. at the Orange Hall.

Getting nearer to the holiday time, many people have their coloured lights up, a nice addition to our lovely scenery.

Cheerio until next week.

WHY AGE DEER?

by A. J. Stewart

Wildlife Biologist

Each deer season Conservation Officers become part-time dentists and spend a lot of time looking at deer teeth. The age of a deer can be determined by looking at the tooth wear patterns. Often hunters ask why it is being done and what is the significance of doing it.

Deer age information is used to determine the age structure, reproductive success and general condition of a deer herd. For instance, let us look at the age data collected during this past deer hunt compared to last fall's hunt. Yearlings or 1½ year old deer made up 25 per cent of the total deer shot while last fall they made up 38 per cent of the deer shot. This shows quite a decrease in yearlings this fall. Remembering that deer which are one and a half this year were fawns last winter, it appears as if a larger percentage of fawns did not make it through the winter. The total number of 2½ year old deer was 9 per cent of the kill while last fall it was 19 per cent. Another large decrease this year. Remember again that 2½ year old animals this fall were only yearlings last winter. It then appears as if yearlings also suffered significant losses during the winter. Fawns made up 28 per cent of the total kill compared to 29 per cent last fall. Once again a decrease is evident indicating that fewer fawns were born this spring.

If we look at data from specific areas in the District some more interesting facts show up. In the Apsley area 22 per cent of the deer shot were fawns while in the Haliburton area 30 per cent of the deer shot were fawns. Obviously does had more fawns in the Haliburton area this spring than in the Apsley area. The higher reproductive success in the north is probably due to the Department's extensive winter range work in that area. Low reproductive success in the Apsley area can be blamed on the lack of adequate food during the winter.

These are a few of the facts disclosed by aging deer. A hunter is making a definite contribution to deer management in the Lindsay District when an Officer ages his deer.

NOW HEAR THIS

by Lorna Rogers

In 1961 a group of CBC entertainers made their first trip to United Nations military bases overseas. So began a tradition that has annually warmed the hearts of thousands of Canadian servicemen far away from home and family, over the years big name artists-Gordie Tapp, Catherine McKinnon, Tommy Hunter, Peter Appleyard, The Travellers, to name a few have performed abroad for Canada's peace-keeping forces. 1971 is the tenth anniversary

year of these missions, sponsored jointly by the CBC and the Department of National Defence.

The annual pre-Christmas trip to Cyprus is now under way and highlights of the show will be heard on CBC Radio Christmas Day. Headliners are Canada's spirited national folk ensemble, Les Feux Follets, and The Sound Invention, four very talented and versatile musicians from Calgary. Acting as hostess will be a former Miss Canada, bilingual pop singer Diane Landry.

Q: My wife and I operate a vacation lodge which is open year 'round. Before the winter guests arrive we want to refinish the floors in some of the rooms and cottages and also in the dining room where a traffic pattern has developed. Will we have to strip off all the old varnish and if so, how do we go about it?

A: You won't have to strip if you use a polyurethane wood finish called Fasteron which comes in clear gloss or satin clear and dries in two hours. However, when using any wood finish you must be sure that all wax or polish is first removed and the floor is free of dust and dry. Use pure turpentine to get rid of the old wax.

RE-FINISHING OVER OLD VARNISH

Sand any blisters or rough spots and wipe up dust with a clean rag dampened with turpentine. Touch up the worn areas with a brush and let them dry thoroughly. Complete the job by brushing on a coat of Fasteron to the entire floor. You'll be able to walk on it two hours later.

In an area where there is a lot of foot traffic, such as your dining room, you may wish to apply multiple coats.

This will give you a heavy-duty polyurethane finish which won't require waxing, won't water-spot, and is so tough it's highly resistant to marring even in heavy traffic areas.

GOOD ON BOATS

This finish can be used outdoors as well as inside, so if you have boats to maintain you might want to use it instead of varnish. It's non-explosive, and one imperial gallon will cover approximately 500 square feet.

For information on polyurethane wood finishes write to Tom Tremfix, The Tremco Manufacturing Company (Canada) Ltd., 220 Wicksteed Ave., Toronto, 17, Ontario.

RETRAINING PROGRAMS IN COBOURG, LINDSAY

Adult retraining programs to be offered in Cobourg and Lindsay have been scheduled by Sir Sandford Fleming College, following requests for such classes from the local Canada Manpower Centres.

The Cobourg program begins December 6, and by January 3 over 90 people will be involved in adult retraining at the College's Cobourg campus. In Lindsay, a 16-week construction laborer course will begin Jan. 3 with 16 students.

Retraining programs will be conducted by Sir Sandford in addition to its continuing education and post-secondary day classes. The College supplies instruction, and students are referred to the program by Canada Manpower Centre managers Tom Cox, in Cobourg, and Woody Hammond in Lindsay. The December 6 course in Cobourg is a 16-week commercial refresher for office workers with previous business experience who need skill upgrading or exposure to modern office practice.

On December 20, two basic training for skill development courses start there, one preparing people for industrial skill training and the second giving the academic requirements for entry to apprentice programs.

An additional three begin Jan 3 in Cobourg, including a 16-week construction laborer course a 10 to 15-week dining room service program and an eight-week industrial orientation period designed to acquaint people having business or commercial backgrounds with the demands of industry, so they can assume industrial production jobs.

Where possible, qualified instructors for these programs are recruited from the community, in co-operation with the Canada Manpower Centres.

To date, nearly all programs for the area have been conducted at Peterborough. Holding them also in other centres means increased convenience and less expense for students, and is seen as a possible incentive for prospective students.
